

TRC Lightpaper

TRC is a community-driven BEP-20 token on Binance Smart Chain designed for transparency, security, and growth.

Key Highlights

- Total Supply: 500M TRC
- Sale Price: \$0.00010 / TRC
- Liquidity: 50,000,000 TRC locked for 70 days
- Audit: Completed by AuditFirmX
- Tax: 4% on trades (2% LP / 1% burn / 1% community)
- Staking: Up to 8% APY via official pools

Why TRC?

- Safeguarded Liquidity: LP tokens locked, preventing rug pulls.
- Deflationary: Automated burns and scheduled buybacks.
- Governance: On-chain voting by staked TRC holders.
- Community Focus: Regular AMAs, airdrops, and grants.

Token Distribution

Category	%	Tokens
